OLYMPIA
Wellness Projects

"Wellness for All"

1. CORPORATE WELLNESS

Corporate Wellness – provide in-house training and gym services to corporate institutions for the wellbeing of their employers within their facility. “Gym Instructor On Call” service provided on a stipulated retainer basis.

Corporate Wellness Means, feeling good about yourself so that you can feel good with others. Just as important is the right, healthy diet, a positive mental approach, a rich social life and a stimulating but un stressful job. Knowing how to breathe properly, sleep well, think productively and have self-esteem are all important. Wellness is all of this and more – Wellness is centered on you yourself; Moreover, Here are just some of the benefits you can expect after implementing our Wellness Program:

Corporate Wellness Packages are designed to deliver Physiological & Psychological Fitness. The increased level of Productivity, Morale and efficiency apply to both the Blue collared & White collared staff.

Additional, the need for ‘Wellbeing’ becomes even more critical for the key members of an Organization who tend to become more indispensable with time. It is important to measure and evaluate all fitness levels on a weekly basis AND to improve upon these levels CONTINUOUSLY.

2. COMMUNITY WELLNESS & MEDICAL WELLNESS

We need to emphasize that local authorities and Governmental organizations and Well wishes should take responsibility in meeting with health objectives of all the communities alike by providing Public fitness facilities. These are integral to a community’s wellness lifestyle and local authorities need to provide facilities that are.

- * Welcoming
- * Outdoor and indoor training facilities easily excisable
- * Affordability to the end User

As for the medical wellness the world is facing a devastating Diabetes epidemic which could be prevented by improved eating & exercise habits.

Exercise therapy proves very effective to prevent and cure many pathologies, thus reducing their social and economic impact on the community at large, on state and private citizen. Physical activity is a medicine that improves life expectancy.

Most common health problems can be addressed by the correct community approach

- Hypertension
- Chronic back Pain
- Metabolic syndrome
- Ageing
- Diabetes
- High Cholesterol
- Obesity
- Cartilage problems
- Osteoporosis
- Traumas of joints
- Neck Aches

On the above the government will gain popularity, and will have less burden on the NHS Budgets which has a very high expenditure in treating unhealthy population, which is not educated to know and counter health issues, by having wellness centers and educating the population at large and maintaining outdoor and indoor wellness facilities and free areas will create the good health practices with a healthy population which will be the biggest asset to any government and by reducing the costs on NH services.

3. EDUCATION AND SPORTS WELLNESS (KIDS WELLNESS ETC.)

Kids Wellness – an exclusive workout program for children between the ages 12 to 17- program that provides advice on dietary habits, regular exercise, regular physical training, outdoor training and social activities.

Encouraging the young people into active lifestyles relies heavily on one thing more than any other “Opportunity”

With today's sedentary lifestyle, the abundance of convenience food and lack of information, the health of our youth is in decline. It is now time to review what and how we educate the youth to ensure their future health and wellbeing. Children are being constantly criticized for their inactive lifestyles, but what are we doing to help? Together educational establishments Government or private and Jabin Consultancy(Pvt)Ltd, Need to review what should be provided to the youngsters to enable a transfer of skills and knowledge to create a culture of physical activity into adult life.

By creating the right environment by having facilities for physical training and education and will become an integral part at student and wider community lifestyle tendency,

All schools, colleges and universities are a hub for the community and are now in a strong position to interact with their students and the local population to promote active lifestyles Jabin Consultancy(Pvt)Ltd, Can provide a fully accessible it is crucial for its success to guarantee safe and monitored environments in which students may train and improve their health and sports conditions.
